

Incredibles 2 became the highest-grossing animated film at the North American box office.

Pixar - the Disney-owned studio known for creating iconic CGI animated films - has produced more than 21 feature films. As a world-class animated film company, Pixar has been in the limelight since its inception in 1986, and their animation has been used as a reference in computer animation textbooks due to their technical excellence and outstanding storytelling. The Pixar videos produced each year are Oscar favorites. The films of Pixar have been very successful at the box office. With \$1.2 billion at the box office, Incredibles 2 set and holds the record for the world's best-selling animated film of all time.
